Forecast For Grampian
Issued by Met Office Aberdeen
at 0400 on Tuesday 29 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mainly dry but cloudy around the coast.

Today:
Low cloud will be quite persistent around coastal areas for much of the day but further inland generally a dry and bright day with the best of the weather for upper Deeside. It will feel warm in the light winds. Maximum temperature 22 deg C (72 deg F).

Tonight:
Cloud spreading readily inland during the evening with mist and fog forming, feeling cold in the cloud with some drizzle too, perhaps some clear spells from Aboyne west. Minimum temperature 5 deg C (41 deg F).

Wednesday:
Low cloud, mist and fog will clear slowly during in the morning with some sunshine likely for all parts in the afternoon, light breezes. Maximum temperature 21 deg C (70 deg F).

Outlook for Thursday to Saturday:
Largely dry and bright on Thursday and Friday, especially across western Aberdeenshire, some warm sunshine. However coastal parts cloudier on Friday, the cloud spreading inland overnight. Saturday perhaps more showery.
